

**Missoula Conservation District
October 21st, 2024, at 5:30 p.m.
1075 South Avenue West, Missoula, MT 59801 – with virtual option**

Missoula Conservation District Attendees: Tim Hall (Chairman), Libby Maclay (Vice-Chair) Travis Greenwalt* (Treasurer), Robert Schroeder (Supervisor), Art Pencek (Supervisor), Paul Parson* (Supervisor), Bart Morris (Supervisor), Josh Schroeder (Associate Supervisor), Radley Watkins (Staff), Bryan Vogt (Staff), Sonja Skovlin (Staff)

Absent: Travis Lemke (NRCS Supervisory District Conservationist), Ladd Knotek (MTFWP)

Additional Attendees: John Hart (Senior Deputy County Attorney), Leo Rosenthal* (MTFWP), Dylan Shields* (MS-28-24), Ben Sorenson (CM-08-24), Julie Brecht*, Nels Larson* (Public), Karen Williams (Public).

*Denotes virtual participation via Zoom

Call Public Hearing to Order – Chair Hall started the hearing at 5:31 pm.

Public Hearing on Permissive Levy – Watkins stated that the Permissive levy for Group Benefits is set at .06 mills, which equates to about \$0.45 for a median-priced home in Missoula County. He added that this permissive levy allows is for staff healthcare. Chair Hall asked for public comment, of which there was none.

Chair Hall moved to approve the 2024 Missoula Conservation District permissive mill levy of 0.06 mills as presented and to request the county to collect it on behalf of the District. Travis Greenwalt seconded the motion. The vote was unanimous in favor and the motion carried.

Adjourn Public Hearing – Chair Hall adjourned the public hearing at 5:33 pm.

Call Meeting to Order – Chair Hall started the meeting at 5:33 pm.

Oath of office for New Supervisor – Chair Hall swore in Bart Morris as the Missoula CD Supervisor to fill the remainder of the term vacated by Sidney Wills' resignation.

Minutes – Libby Maclay moved to approve the September 9th, 2024 Board Meeting minutes as presented. Robert Schroeder seconded the motion. The vote was unanimous in favor, and the motion carried.

Treasurer's Report – Travis Greenwalt presented the following account balances from the District's QuickBooks Balance Sheet dated October 16, 2024, included in the Supervisors' meeting packets. Also included was the year-to-date Profit and Loss report dated October 16, 2024.

First Security Bank – Checking	\$32,173.61
First Security Bank – Petty Checking	\$1,876.65
First Security Bank – Savings	\$58,526.96
DADCO Savings	\$204,911.79
Tax Mill Levy Account at County	\$377,916.24
Total Bank Accounts	\$675,405.25

Public Comment – Watkins introduced Karen Williams of the Clearwater Resource Council (CRC), who was invited to attend. Watkins stated that Karen is interested in serving an Associate Supervisor and could be a liaison between the MCD and the Seeley Lake and Swan communities. Williams informed the Board that she had previously served on the CRC Board; she now serves as their Aquatics Director. She stated that, additionally, she works as an engineer and geomorphologist with Jacobs Engineers.

Reports

NRCS Report – Travis Lemke, Supervisory District Conservationist, was absent from the meeting. No report was submitted.

County Attorney Report – John Hart reported that last week he received a dismissal of the Starlan vs Nielsen case that the MCD had previously been dismissed from. Hart stated that with this dismissal the Starlans agreed to cease using the surface irrigation water and to switch to a groundwater irrigation right, and that they will withdraw any claims to a surface water POD on the Nielsen property. The plaintiffs agreed not to object to the Starlan’s new claim for a groundwater irrigation right. He concluded that at no time did he believe that the MCD was at fault in the case. Hart mentioned that some Missoula County residents have expressed concern about the new floodplain maps for the Clark Fork River, the Clearwater River, the Blackfoot River, and for Rock Creek, and that misinformation is being spread. He encouraged the CD, if approached by members of the public, to explain how FEMA creates the maps to be compliant with national floodplain insurance policies, how the maps are developed using years of science and technology, and the process by which the County adopts these maps. Hart stated he and Missoula County Floodplain Administrator Matt Heimel are available to field questions and concerns from the public. Watkins spoke of his discussion with Heimel of having public meetings that Watkins will use to discuss CMZ maps and Heimel would discuss the new floodplain maps; Hart stated that he could see no issue in co-hosting these types of public meetings, and that they would be beneficial. Morris asked if the new floodplain maps were online; Hart said that they are, but he can’t speak exactly how to access them; he clarified that these maps are in draft form. Watkins stated he was just able to access the draft FEMA maps by searching online for “draft updates to Missoula County floodplain maps.”

Montana FWP – Rosenthal reported that he and his colleagues are completing bull trout counts for the year and that they are finding that the numbers are lower.

DNRC Conservation District Bureau – Catey Bauer, CD Specialist for western Montana CDs, submitted a report that was included in the Supervisor’s meeting packets for review. Watkins reviewed content within her report regarding updates to the 2024-2025 CD Grant Guidelines, 10-minute trainings for Supervisors, and a change to the minutes submittal process.

MACD

Area 5 Meeting Recap – Watkins provided an overview of the Area 5 meeting, emphasizing the annual report he prepared and submitted to Area 5 on behalf of MCD.

Longevity Awards - Chair Hall and Vice Chair Maclay recognized Associate Supervisor Josh Schroeder and staff member Bryan Vogt, respectively, for their five years with the District. Maclay recognized Chair Hall for his 30 years serving on the MCD Board.

Watkins recognized Skovlin for her “behind-the-scenes” work on the MCD commemorative rock.

Bitter Root RC&D – Libby Maclay stated that the RC&D would meet later in October.

Dept. of Ecology and Extension/Weed District/GWMEC Building – Watkins reported that staff would join Extension staff on Wednesday, October 30th for a meeting and training focusing on effective communication and gaining more understanding about how each entity serves the public and potential opportunities to work together.

Watershed Groups – Watkins reported working with the Clark Fork Coalition (CFC) on Grant Creek and Miller Creek. He helped survey an abandoned irrigation diversion site with Travis Lemke and CFC staff in Miller Creek. Watkins informed the Board that staff had mailed conceptual designs to Grant Creek landowners and had received one phone call following the mailing. Chair Hall and Watkins discussed the open spot on the agenda for any watershed groups and informed Karen Williams that she could offer any information pertaining to watersheds associated with CRC. Williams stated she did not have a report to provide.

Planning Board Update: Josh Schroeder stated that he missed the last two planning board meetings due to conflicts with his schedule. He reported that the City of Missoula is updating its growth policy, now officially called its Land Use Plan, to comply with new state statutes passed in the 2023 legislative session. Schroeder stated that the Land Use Plan focuses on seeking public input earlier in the planning process; a developer would then follow the plan and there would be less public input at that point. He pointed out that this approach will likely lead to some public confusion since there has historically been the ability to comment and perhaps prevent development. Schroeder articulated two components of the Land Use Plan: updating of the growth plan and then making sure zoning aligns with that plan. He stated that the City intends to use the Land Use Plan for 20-25 years; T. Greenwalt said that it is likely the Land Use Plan would be reviewed every 5 years.

Water Quality District – Chair Hall reported that there was no meeting this past month.

District Committees – Chair Hall reported that the Personnel Committee had met with Watkins in the past month to review annual workplan progress, and that the committee was satisfied with staff's efforts in meeting goals in their respective workplans.

Missoula CD Employees – Written reports were included in the Supervisor's packets.

Other Reports – None were offered.

New Business

Utilities and 310 Permitting – Watkins introduced Ben Sorenson of NWE and Julie Brecht, a consultant working with Blackfoot Communications. He showed slides of NWE and Blackfoot Communications planned work across Missoula County. Watkins also showed slides of a recent DNRC legal opinion regarding boring projects.

Watkins showed a slide of his current recommendations to utilities inquiring about permits for Julie Brecht; which include being 50 feet away from the ordinary high water mark, and keeping at least a 3 foot scour depth. For each of Blackfoot Communications' 93 water crossings they are more than 50 foot away from the creek for the entry and exit of the boring pits. Brecht stated that she can supply plans for each of them.

Ben Sorenson stated that NWE has been turning in permits for all their boring projects. He said the company has been working through the cleanup from the July 24th storm; NWE found a letter from MCD from 2011 or 2013 regarding tree trimming and they are trying to follow recommendations outlined in that letter.

Chair Hall inquired about the map that was submitted by Sadie Babcock which shows many crossings that he assumes wouldn't all be addressed in 2025; Sorenson confirmed. Chair Hall emphasized that this timeframe offers the opportunity to communicate which sites are going to be addressed and whether any need a more in-depth permit review or application.

Karen Williams commented that it is standard engineering practice to calculate depth of scour on a boring project, so she would advise that they do it with each crossing rather than just specifying a specific depth as a general practice.

Chair Hall stated that the Board may want to form an ad hoc committee over the winter to review NWE's map of proposed work and to consider how NWE best informs the CD of this work.

Watkins asked the Board if they were comfortable allowing all of Julie Brecht's contracted crossings without a 310 permit applications since they all have 50-foot setbacks; the Board indicated they were fine with that suggestion.

MACD Convention

Attendance – Watkins reported that all staff is interested in attending the convention, and that Vogt will be presenting a session with Lake County CD colleague Caroline MacDonald on grant writing. Vogt pointed out that as a presenter, his registration fee will be \$100 less than the full fee. Watkins stated that staff need overnight travel approval.

Chair Hall moved to allow staff to attend the 2024 MACD Convention in Great Falls that includes overnight travel. Art Pencek seconded the motion. The vote was unanimous in favor and the motion carried.

Resolutions and Voting Delegate – Watkins showed a slide of the four resolutions that CDs from across Montana have submitted to be discussed and voted upon at the convention. The four resolutions that Watkins presented are: Support Reducing the Use of Neonicotinoids in Montana (Gallatin CD); NACD encouraging NRCS to return some hiring responsibilities back to individual states (McCone CD); MTDOT/BNSF Invasive Species cooperation (Sheridan CD); Managed Aquifer Recharge Potential in Montana (Richland CD).

The Board discussed that Robert Schroeder will serve as the MCD voting delegate and gave him the authority to make decisions on the proposed resolutions on behalf of the MCD Board of Supervisors.

Skovlin reported that the Wills donated a Blackfoot Brands silk scarf for the auction. Watkins discussed prior policy of spending \$100 on an auction item. The Board agreed to follow prior procedure on this matter.

Correspondence and Upcoming Events: A document covering upcoming events was included in the Supervisor packets.

Site Inspections Scheduling – Site inspections are scheduled for November 7th with Ladd Knotek.

Proposed changes to Minutes - Watkins discussed removing employee reports from the Minutes since they are not an agenda item; they would remain in Supervisor Packets. He also suggested generating a budget detail report in QuickBooks in lieu of the current practice of recreating financial reports as embedded spreadsheets within the minutes. The QuickBooks report would be included in the Supervisor Packet and could also be furnished to the public upon request. The Board agreed to staff making these changes.

Programs

Grants Program

MCD Grants: Vogt reviewed the report included in the meeting packets, which provides oversight of active grants; he highlighted outside DNRC grants, noting that two should be closed out by the end of the month. Vogt stated that a Letter of Agreement was signed between the MCD and DEQ to provide \$10,000 in funding that will allow MCD to produce native plant plug packs for a pilot project involving other CD's in Area 5 who are interested. The focus of the project is to promote native plants in place of traditional, introduced turf grass lawns. He informed the Board that the MCD Grant application period closed with 14 applications being received, mostly for the larger Education Cost Share and Innovation Conservation Grants. The Grants Committee will meet on Nov. 4 to review these pre-applications and applications for other grants that were received.

Outside Grants

DNRC Education Mini Grant for 2025 WMCAG support: Vogt stated that he intends to submit this grant soon. The Board supported staff submitting this application.

Soil Health/Equipment Program: Vogt reported that he was asked to help the FFA Environment and Natural Resources team who will be competing soon at the national competition. He presented an amended version of the talk he gave during fair. He also presented again to the local Master

Gardener class. He stated that he will participate in an upcoming meeting with the Five Valleys Land Trust which is planning to develop a landowner soil health workshop early next year.

Vogt informed the Board that two individuals have rented the drill since last month. He stated that weather will determine when the drill is put into storage for the winter.

Pollinator Program/MTNSN: Vogt reported that he has assisted a Rattlesnake Creek landowner in installing a pollinator habitat plot with the Western Montana Wildflower seed mix. Vogt updated the Board on the Franklin Street Pollinator Pathway project, emphasizing his work with the Bee City group on this effort, and that there may be opportunities for future pollinator pathway projects across the city. Vogt and Watkins explained how plant plugs packs are being developed for both the pollinator pathway project and the Western Montana Native Plant Collaborative, for which a \$10,000 agreement was just signed with DEQ. Vogt expressed how all these efforts represent a progression of the MCD's pollinator initiative and emphasis on native plants. The Board offered support for establishing "pollinator pockets" throughout city parks and along the river, and inquired about having a Big Sky Watershed Corpsmember who could work on this effort.

Vogt stated that at the upcoming Area 5 EO meeting area staff will tour the MTNSN plots at the DNRC Nursery with Michael Butts.

Wildlife Damage & Habitat Conservation Program – Watkins reported that the connectivity group promoted a linkage lunch sponsored by Center of Large Landscape Conservation, and that all in attendance were invited to participate in a discussion. Watkins mentioned an opportunity to work with a videographer to highlight the 6-mile project.

Other New Business – Chair Hall reported that the Missoula County Commissioner's office awarded Bert Lindler a conservation land stewardship award. Hall recognized Lindler, retired from the USFS, as an active volunteer who has worked with landowners, organizations, and agencies to coordinate weed management, wildlife fence installation and other conservation efforts. It was stated that Sarah Holden of MCDEE nominated him, and that the Open Lands Committee unanimously awarded Lindler this distinction.

Old Business

Horse Keeping Partnership MOU – Watkins discussed the development of this MOU and that MCDEE was added to this partnership as they have a connection to the MC Fairgrounds; he reviewed the MOU on screen including changes shown in red text; the MOU doesn't obligate MCD or any of the partners to anything but is an agreement to share an ethic on this topic.

Robert Schroeder moved to that Missoula CD adopt the draft Horse Keeping Partnership Memorandum of Understanding as presented with changes shown in red text. Travis Greenwalt seconded the motion. The vote was unanimous in favor and the motion carried.

Montana Native Plant Initiative (MNPI): Please refer to discussion of this earlier in the minutes (under Pollinator Initiative).

Other Old Business – No other old business was presented.

310 Emergency Notices

EM-04-24 – Victor and Sharon Sandau – Lolo Creek – Vegetation Removal
Geocode: 04-1974-02-1-03-01-0000

Chair Hall introduced this Emergency Notice, stating that the landowners filed it after they had vegetation removed following the July 24th storm. Watkins displayed the site location slides and photos of trees that were cut. No official site inspection was conducted. Watkins stated that he explained to them of the correct process of filing a 310 permit application, and pointed out how much time had lapsed between that conversation versus when they turned in the EM to inform the District of the emergency action they took. The Board discussed that if the trees had floated down and piled up against the bridge support that this would have constituted a true emergency, but not if they were just leaning over and threatening to float down against the bridge.

Robert Schroeder moved to consider the actions taken under Emergency Notice No. EM-04-24 an improper use of the emergency provisions of the 310 Law as there was enough time to obtain a regular 310 Permit application for this project and therefore declare the actions taken a 310 Violation; no further actions are required to remediate or resolve the violation, and the landowners will be advised to apply for a regular 310 Permit before conducting any similar activities in the future. Libby Maclay seconded the motion. The vote was unanimous in favor and the motion carried.

Existing 310 Permits – No existing 310 permits were presented.

APO Applications – None to discuss this month.

310 Permit Applications

MS-11-23 – Kimberly and Robert Bobber – Swan River – Culvert
Geocode: 04-2992-18-2-01-19-0000

Nothing new since last month. The Board took no action.

MS-05-24 – Nels Larson – Lolo Creek – Agricultural/Irrigation Projects
Geocode: 04-1975-05-3-01-01-0000

Nels Larson stated that he planned to submit an APO for the proposed annual work, and requested that this application be removed.

MS-09-24 – Todd Randall obo Matthew Cole – Rattlesnake Creek – Channel/Bank Projects
Geocode: 04-2200-11-2-05-08-0000

Nothing new was presented. The Board took no action.

MS-11-24 – Annick Smith and Lilly Tuholske – Bear Creek – Irrigation Projects
Geocode: 04-2202-24-1-01-03-0000

Watkins presented revised project design plans – including a schematic of a fish screen - that he received on this same date, October 21st. The Board discussed that a TMR from Patrick Uthe following his review of these revised plans would be useful in making a decision on this project. The Board took no further action.

MS-27-24 – Edward Treece – Miller Creek – Debris Removal
Geocode: 04-2093-19-1-01-10-0000

Watkins presented a site location slide, photos of the project site, a photo of the site’s location in the floodplain, a photo of the broken limb hanging over the creek, and a photo of a Russian Olive tree that the applicant would like to remove. He stated that no site inspection was conducted since Ladd Knotek had seen the site prior to the application being filed. Watkins mentioned that the CD has received a grant application for removal of the abandoned diversion structure at this site, and that that project potentially includes the removal of a tree with a broken top. Robert Schroeder moved to consider Application No. MS-27-24 a project for consideration under the 310 Law and to approve the project as proposed, and to waive the 30-day waiting period following the Board’s decision. Art Pencek seconded the motion. The vote was unanimous in favor and the motion carried.

MS-28-24 – Montana Forest Consultants Inc. – O’Brien Creek – Crossings/Roads
Geocode: 04-2199-29-1-01-02-0000

Watkins showed site location slides, photos of the project site, and presented an overview of the project application. He read the TMR from Ladd Knotek, who recommended conducting work when the ground is frozen and to use temporary log corduroy. Robert Schroeder recommended that the applicant reseed disturbed areas. Art Pencek moved to consider Application No. MS-28-24 a project for review under the 310 Law and approved the project with modifications incorporating recommendation from TMRs, and to waive the 30-day waiting period following the Board’s decision. Robert Schroeder seconded the motion. The vote was unanimous in favor and the motion carried.

MS-29-24 – Joshua DiMaggio – Cromwell Creek – Crossings/Roads
Geocode: 04-2426-12-4-03-11-0000

The Board discussed leaving this application on the agenda, and took no action.

MS-30-24 – Euchre Mountain Logging Inc – Glacier Creek – Crossings/Road
Geocode: 04-2991-11-1-01-01-0000

Watkins displayed site location slides and photos from site inspection; discussion of having applicant include the logging operations within the SMZ into the 310 application; Leo Rosenthal stated that the stream crossing project proposal was sound and thorough. log corduroy crossing; he mentioned that the Supervisors recommended that the applicant put a couple additional logs in as stringers under the log corduroy to add structure and facilitate water passage in the crossing; Rosenthal had no objections to the plan for SMZ harvest, particularly because the 25 foot reach of the logging equipment and the restriction that that equipment remain 50 from the

bank. This technique will assist in a “feathering” of removed trees from the interior of the property to the waterfront.

Robert Schroeder, in reviewing his TMR, stated that care should be taken so no work happens in standing water areas, and to the applicant reseed all disturbed areas within 25-ft of stream and at crossing location.

Bart Morris’s TMR recommended approval with modifications in line with Bob’s recommendations. This includes machinery to remain out of the 50-foot riparian zone, leaving bunches of trees to prevent wind tunneling, and feathering of removed trees; There was also the recommendation to place the same kind of log corduroy crossing structures in other wet, low-lying areas to reduce disturbance.

The Board specified that all work be completed by February 20th.

Bart Morris moved to consider Application No. MS-30-24 a project for consideration under the 310 Law and approve the project with modifications incorporating recommendations from the TMR and to require the removal of the crossing structures by 2/20/25. Chair Hall seconded the motion. The vote was unanimous in favor and the motion carried.

310 Complaints

CM-08-24 – Northwestern Energy – West Fork Twin Creek – Vegetation Removal Geocode: 04-2328-35-1-01-01-0000

Watkins presented a site location slide, a photo of the site, and photos showing removed soil and vegetation. Ben Sorenson of NWE stated that he visited the site where the contractor crossed the stream to fix company infrastructure. He said he was aware that a 310 permit needed to be obtained and that the contractor overlooked this step. Robert Schroeder, in reviewing his TMR, noted that minimal work was done but that it did constitute a violation; he recommended that the Board require NWE to apply for a 310 permit to recontour the slopes of banks that were disturbed. Bart Morris stated that he observed a scar and what looks to be material that was pushed into the creek at the time of the work being done. The Board discussed the option for NWE to apply for an APO to allow them or their contractors to cross the site for multiple years. Watkins mentioned that he and Patrick Uthe recommended that NWE work with the landowner, The Nature Conservancy, to develop a 310 permit application.

Bart Morris moved to consider Complaint No. CM-08-24 a violation of the 310 Law for work conducted on a perennial stream without a valid permit and to require a 310 permit application for work to resolve the violation. Chair Hall seconded the motion. The vote was unanimous in favor and the motion carried.

Robert Schroeder moved to require a 310 Permit application for recontouring of the crossing site, ensuring that any runoff does not drain into the stream, and for the site to be revegetated. This permit application may be for an Annual Plan of Operations, if crossing activities may take place annually. Art Pencek seconded the motion. The vote was unanimous in favor and the motion carried.

CM-09-24 – JB Yonce – Rattlesnake Creek – Unpermitted Check Dam Geocode: 04-2200-02-2-02-01-0000

Watkins displayed site location slides and photos of unpermitted work on a check dam from a site visit he conducted with the complainant. Watkins recommended that the landowner consider

applying for an APO. Watkins asked if there was a fish screen at the diversion site; Paul Parson confirmed that a screen is present.

Chair Hall moved to consider Complaint No. CM-09-24 a violation of the 310 Law for work conducted on a perennial stream without a valid permit and to require a 310 permit application for future activities to maintain the irrigation diversion site. This permit application may be for an Annual Plan of Operations. Art Pencek seconded the motion. The vote was unanimous in favor and the motion carried.

Existing Violations Needing Action

CM-01-24 – Glen and Rhonda Brownlee – Donovan Creek – Crossings/Roads
Geocode: 04-2095-08-3-01-05-0000

Nothing new to report. The Board took no action.

CM-06-24 – Ronnie and Bonnie Moore – Clearwater River – Vegetation Removal
Geocode: 04-2759-31-2-04-03-0000

Watkins showed photos taken from a bridge of the work leading to declaration of the violation. The landowners have not responded to the two letters they have been sent notifying them of the complaint and of the violation. Watkins asked if Hart could send a letter to the Moores. Hart requested that Watkins send him photos and copies of prior letters sent to the landowners so that he could assess what action to pursue.

Existing Violations Pending Follow-up Inspection

CM-03-23 (Re: MS-17-23) – Tyler and Tracy Deeds – Clearwater River – Vegetation Removal
Geocode: 04-2540-14-2-02-05-0000

CM-08-23 – Cristina and Dennis Green – Miller Creek – Vegetation Removal
Geocode: 04-2093-21-3-04-07-0000

Watkins displayed a photo taken during a recent site visit showing a 10-foot vegetation buffer adjacent to Miller Creek.

Art Pencek moved to consider Violation No. CM-08-23 resolved based on evidence from a recent staff-conducted site visit. Libby Maclay seconded the motion. The vote was unanimous in favor and the motion carried.

CM-10-23 – Patricia Coolidge – Clearwater River – Construction in a Riparian Area
Geocode: 04-2540-10-1-02-05-0000

CM-12-23 – Richard Farrar – West Twin Creek – Rock Dam and Bridge
Geocode: 04-2202-02-2-02-15-0000

Watkins showed photos from a recent site visit he conducted showing removal and no reconstruction of the rock dam this season. He stated that the bridge was determined to be installed

prior to the complainant purchasing the linked property and if the complainant felt that there was a trespass issue, that would be beyond the scope and jurisdiction of the 310 Law.

Robert Schroeder moved to consider violation No. CM-12-23 resolved. Bart Morris seconded the motion. The vote was unanimous in favor and the motion carried.

CM-14-23 – Joan Mulligan – Clark Fork River – Vegetation Removal
Geocode: 04-2095-21-2-02-01-0000

CM-05-23 (Re: MS-41-23) – David and Lori Rath –Lolo Creek – Stream Excavation
Geocode: 04-1972-05-1-01-03-0000

CM-03-24 – Nathan Woronik – Clearwater River – Vegetation Removal and Heavy Equipment Operation
Geocode: 04-2540-10-3-01-13-0000

CM-05-24 – Gary and April Yetter – Lolo Creek – Vegetation Removal and Unpermitted Dock
Geocode: 04-1974-02-1-02-01-0000

310 Inquiries & Issues – The issue of utility boring was discussed in a separate agenda item. There were no other 310 inquiries or issues to discuss.

Payment of Bills and Claims

Chair Hall moved to pay the September bills and claims and to adjourn the meeting at 8:46 pm. Travis Greenwalt seconded the motion. The vote was unanimous in favor, and the motion passed.

The next Missoula Conservation District meeting is scheduled for **Monday, November 12th, 2024, at 5:30 pm** in the Gerald W. Marks Exploration Center, 1101 South Avenue West, Missoula, MT, 59801. A virtual option will also be offered.

Voting Record – CD Supervisor	IN FAVOR	OPPOSED	ABSTAIN
Tim Hall	14	-	-
Libby Maclay	14	-	-
Travis Greenwalt	14	-	-
Paul Parson	14	-	-
Art Pencek	14	-	-
