

***Title: Registration Open for 2020 Crop and Pest Management School***

***Description:*** Register now for the 2020 CROP AND PEST MANAGEMENT SCHOOL, which will be held on Tuesday, January 7<sup>th</sup> through Thursday, January 9<sup>th</sup> 2020 in Bozeman. Contact Kevin Wanner, [kwanner@montana.edu](mailto:kwanner@montana.edu).

*Registration is open 11/15/2019 to 01/06/2020 or until all available spaces are filled.*

**PLEASE NOTE** the meeting will be held in a new location:

**Homewood Suites by Hilton, 1023 Baxter Ln, Bozeman, MT**

With this new location we will not need to issue campus parking passes as we have in the past. Also NOTE that lunches will now be provided as part of the registration fee.

To register online and pay with a credit card, visit

<http://plantsciences.montana.edu/labs.html> , under Integrated Pest Management, Crop and Pest Management School, click “Register Online”.

To register by mail-in form and pay via check print the brochure included in this AgAlert and complete the written registration form.

By request a mixture of topics will be covered rather than focusing on one theme. This annual workshop has been offered for more than 15 years and offers a diverse and high-quality panel of speakers that includes industry, government, and academic specialists, providing current and relevant educational information on crop management. Pesticide applicator and crop consulting credits are still to be determined, but should be similar to previous years.

The opening lecture will be provided by Dr. Sreekala Bajwa, President, Dean & Director of the MSU College of Agriculture. Thirteen faculty from five different departments at MSU will present their research. Highlights this year include talks on hemp agronomy and regulations, a session on pesticide resistance and its management, talks on precision agriculture and for the first time, two talks that include animal science. Please refer to the attached brochure for a list of speakers and topics.
