

**Missoula Conservation District – July 12, 2021 at 7:00 p.m.**  
**3550 Mullan Rd, Ste 106, Missoula, MT 59808**

**Missoula Conservation District Attendees:** Tim Hall (Chair); Libby Maclay (Vice-Chair); Bob Schroeder (Supervisor); Sid Wills\* (Supervisor); Bart Morris (Associate Supervisor); Josh Schroeder\* (Associate Supervisor); Radley Watkins (Staff); Bryan Vogt (Staff); Jackie Vitas (Staff)

**Additional Attendees:** John Hart (Senior Deputy County Attorney); Ladd Knotek\* (MT FWP); Leo Rosenthal\* (MT FWP); Travis Lemke\* (NRCS Supervisory District Conservationist); Kristen Baker-Dickinson\* (DNRC); Corri Smith (MS-23-21); Max Weiss (MS-22-21); Barbara Neilson (MS-22-21); Elissa Chott, CFC (MS-20-21 & MS-21-21); Todd Bender\* & Lisa Bender\* (CM-02-21)

\*Denotes virtual participation via Zoom

**Absent:** Travis Greenwalt (Treasurer), Paul Parson (Supervisor), Art Pencek (Supervisor)

**Call Meeting to Order** – 7:04 pm by Tim Hall

**Minutes** – Libby Maclay moved to approve the June 14, 2021 Minutes as presented. Bob Schroeder seconded the motion. Vote was unanimous in favor – motion carried.

**Treasurer's Report** – Radley Watkins reported \$17,763.53 in the District's checking account.

**Public Comment** – None

**NRCS Report** – Travis Lemke, NRCS Supervisory District Conservationist, reported that staff have wrapped up contract development work for the EQIP 2021 preapprovals (Upper Ninemile TIP, Potomac Valley TIP, the High Tunnel, Organic and Honey Bee Pollinator EQIP Special Initiatives, and Wildfire Adapted Missoula). The contract obligation deadline was on 7/9/21. Lemke stated that well over \$600,000 worth of contracting was awarded in Missoula County and over 22 EQIP contracts have been obligated. In addition, the field office (FO) has two Conservation Stewardship Program (CSP) preapprovals that will be obligated soon (July 30th deadline) here in Missoula County focusing on forest health related issues. Ben Crystal recently joined the FO staff on 6/21/21 as a forester. Ben is a recent graduate of Mississippi State University and spent time working last summer in the Eureka NRCS FO as a Pathways Intern.

### **310 Permit Applications**

**MS-30-20 – (Tabled 11/09/20)** – Marie Ann Zens Kimerly – Lolo Creek – Bank Stabilization  
Geocode: 04-2091-33-3-01-04-0000

Watkins stated that there was nothing new to report on this application.

**MS-20-21** – Clark Fork Coalition – Condon Creek – Beaver Dam Exclusion/Fencing  
Geocode: 04-3107-11-1-01-01-0000

Watkins reported on a new application for the installation of beaver exclusion fencing at a culvert crossing on Condon Creek. Watkins presented a diagram of the proposed project design from the application and

photos from a site visit he conducted on June 28, 2021. No official site inspection was conducted. Elissa Chott stated that a trapezoidal shaped fence will be constructed to keep beavers from plugging the culvert and causing damage to a spur road past the Old Condon Ranger Station off of Condon Loop Road. Rosenthal stated he had been out to this site and the one nearby on Smith Creek (MS-21-21), and he is supportive of both proposed project applications (MS-20-21 and MS-21-21).

Bob Schroeder moved to make Application No. MS-20-21 a project for review under the 310 Law and to approve the project as proposed. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**MS-21-21** – Clark Fork Coalition – Smith Creek – Beaver Dam Exclusion/Fencing  
Geocode: 04-3107-14-1-01-01-0000

Watkins reported on a new application for the installation of beaver exclusion fencing at a culvert crossing on Smith Creek that is very nearby and similar in scope to MS-20-21. He presented a diagram of the proposed project and photos from a site visit he conducted on June 28, 2021. No official site inspection was conducted. As noted above under MS-21-21, Rosenthal stated his support of the proposed project.

Bob Schroeder moved to make Application No. MS-21-21 a project for review under the 310 Law and to approve the project as proposed. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**MS-22-21** – Barbara Neilson – La Valle Creek – Debris Removal  
Geocode: 04-2324-25-4-01-02-0000

Watkins reported on a new application for the removal of two unused, concrete headgates from La Valle Creek. He presented site location photos and pictures taken during a June 17, 2021 site visit. No official site inspection was conducted. Watkins provided a brief explanation of 310 jurisdiction the Board had previously determined for La Valle Creek on Neilson's property based on a 2020 permit (MS-02-20). Max Weiss gave a brief historical background of the headgates and stated they now cause issues by catching debris. Weiss noted that an excavator with a thumb would be used to remove the headgates, but no other accumulated materials would be removed from the stream. Knotek stated he had nothing to add. The Board requested that a clarification be made on the Permit to reference "headgate" removal, not "debris" removal.

Bob Schroeder moved to make Application No. MS-22-21 a project for review under the 310 Law and to approve the project as proposed. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**MS-23-21** – Corri Smith – Clearwater River – Debris Removal  
Geocode: 04-2540-10-3-02-18-0000

Watkins reported on a new application for the removal of a windthrown ponderosa pine tree along the banks of the Clearwater River on a DNRC lot leased by Corri Smith. Smith is the applicant and Kristen Baker-Dickinson has signed the application for DNRC. Watkins presented site location photos, pictures from the application, and those he took during a June 28, 2021 site visit. No official site inspection was conducted. Watkins added that the application also calls for restoring a 25-ft unmowed riparian buffer zone since the site has historically been mowed up to the water's edge. Several neighboring DNRC leased

properties have also mowed to the water's edge and the District has previously discussed these violations with Baker-Dickinson and asked the DNRC address them. The Board has normally considered a 50-ft buffer zone for the Clearwater River. Smith stated she was advised of the need to obtain a 310 permit for the downed tree's removal from Baker-Dickinson and that she is working to have a contractor remove the downed tree and root wad using chainsaws and an excavator. Knotek added he would like to see a future requirement that 5-6 trees get planted for every tree removed from any site. The Board directed staff to provide Smith additional information regarding the District's 310 Law requirements along with DNRC's Streamside Management Zone rules for tree removal and riparian buffer zone requirements.

Libby Maclay moved to make Application No. MS-23-21 a project for review under the 310 Law and to approve the project with modifications. Tim Hall seconded the motion. Vote was unanimous in favor – motion carried.

- The tree removed shall be replaced with at least one living tree (4-5 planted sapling recommended to assure long-term survivability).
- Maintain District standards for vegetation survival rate (75% of planted vegetation must survive one year from initial planting; 50% of planted vegetation must be evidently viable two years from project completion date).
- No mowing or other vegetation removal in the area 25 feet from the ordinary high-water mark shall occur.

### 310 Complaints

**CM-06-20 (Re: MS-31-20, AWM 11/09/20)** – Mark and Cassandra Rideg and William Rideg – Spring Creek – Dam Building/Maintenance  
Geocode: 04-2427-07-1-01-01-0000 and 04-2427-07-1-02-08-0000

Watkins stated that there was nothing new to report on this complaint and added he would reach out to the applicant for an update on the work.

**CM-02-21** – Deborah and Andrew Carstensen – Cooney Creek – Point of Diversion  
Geocode: 04-2992-06-2-01-13-0000

Watkins reported this complaint was called in anonymously last month and involved a skid steer constructing a dam across Cooney Creek to divert water into an irrigation headgate. As discussed at the June Board meeting, a complaint letter was sent to the landowners, Deborah and Andrew Carstensen, who then contacted Watkins and provided the name of the individual they claim conducted the work on their property without permission. A site inspection was conducted on June 8, 2021 with Pencek, Rosenthal, Watkins, and the landowner, Andrew Carstensen, attending. At that point Carstensen reported that he saw Todd Bender doing the work. Watkins then sent a letter to Mr. Bender. Todd Bender has since informed Watkins that he conducted the work not realizing a 310 Permit was required. An incomplete 310 Application has been received from Bender, and Watkins requested the Board provided direction on what corrective actions they would like to see included in the application. Vogt clarified that the Board deemed this complaint an official 310 Violation last month even though it didn't get changed on the agenda. Todd and Lisa Bender were attending the meeting and stated they had received direction on how to operate and maintain the diversion and ditch many years ago from several older water users. Mr. Bender stated these individuals never mentioned anything about needing permits. Mr. Bender added he is willing to do whatever

Minutes  
Missoula Conservation District  
July 14, 2021

is necessary regarding the 310 Application. The Board directed the Bender's to work with Watkins on developing and submitting a 310 Application to resolve the existing violation prior to next month's Board meeting.

**CM-03-21** – Hilda Marie Marchuk – Clearwater River – Vegetation Removal  
Geocode: 04-2759-31-2-03-19-0000

Watkins reported receiving a complaint from Ladd Knotek about vegetation clearing and construction of a fire pit on a site along the Clearwater River just downstream of Lake Inez on the downstream side of the Beargrass Lane bridge. The landowner was sent a complaint letter, and the landowner's daughter, Crystal Armerding, replied via email and stated that she was unaware of the need for a 310 Permit. She submitted an electronic permit application, but it was not in a file format that could be opened by staff. Staff requested Ms. Armerding resubmit it in a different file format so that the application may be processed. The Board took no further action at this time.

### **Existing Violations**

**CM-08-19 (Re: MS-32-20, AWM 03/08/21)** – James Schlinger – Barber Creek – Excavation on Creek and Banks  
Geocode: 04-2992-19-1-01-11-0000

Watkins presented photos from a June 21, 2021 site visit he made to Barber Creek to observe work completed under Permit No. MS-32-20. The bridge is now 3-feet over the ordinary high-water mark, at least 10 bunches of willows were growing in areas that plantings were required, and a lot of the areas previously disturbed had vegetation reestablished on them. B. Schroeder and L. Rosenthal both stated that these measures appear sufficient to resolving Complaints No. CM-08-19 and CM-02-20.

Bob Schroeder moved to consider Complaint No. CM-08-19 resolved. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**CM-02-20 (Re: MS-32-20, AWM 03/08/21)** – James Schlinger – Barber Creek – Bridge & Road Work  
Geocode: 04-2992-19-1-01-11-0000

See discussion above under CM-08-19.

Bob Schroeder moved to consider Complaint No. CM-02-20 resolved. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**CM-09-20 (Re: MS-04-21, AWM 02/08/21)** – Carl Graumann – Clark Fork River – Vegetation Removal  
Geocode: 04-2200-17-2-01-12-0000

Watkins reported there were no updates at this time but that the work would likely be completed this fall.

### **310 Inquiries & Issues**

Watkins stated he had nothing to report. The Board discussed ongoing issues with mowing and vegetation clearing along the Clearwater River on DNRC lease sites in Seeley Lake, noting that the agreement to a 25-ft

riparian buffer zone for MS-23-21 was a step in the right direction. Knotek offered to walk that stretch of river with the District and stated there are likely 5-6 current 310 violations. The Board discussed potential benefits of having DNRC, the Double Arrow Landowners Association (DARLOA), Clark Fork Coalition (CFC), Clearwater Resource Council (CRC), and other groups join in a river walk to discuss 310 Law requirements. Knotek's suggestion of requiring 5-6 trees be replanted for each tree removed may be something the Board considers for future permits.

## **Reports**

County Attorney Report – John Hart stated that he had nothing new to report.

Montana FWP – Ladd Knotek reported that the Elbow Lake dam has not been modified and signs are still up. Montana Dept of Transportation and Montana Rail Link are working to get the old piers removed from the lower Blackfoot River. Converting all water users on the Hellgate Ditch to wells is moving forward as signatures from the water rights users have been obtained. Knotek also reported that mowing up to the water's edge is still occurring at Lolo Hot Springs Resort after the manager agreed to stop this activity last year during a site inspection for a footbridge permit (see MS-27-20). No hoot owl restrictions have been issued for the Bitterroot River as temperatures are being held down by the haze from the wildfire smoke. Leo Rosenthal had left the meeting earlier and did not provide a report.

The Board directed staff to send a reminder letter to Lolo Hot Springs Resort to discontinue mowing within the 10-ft buffer zone of Lolo Creek.

Bitter Root RC&D – Libby Maclay reported that the RC&D is seeking a person to step up as Treasurer.

Weed District/Extensions – No one was in attendance and no report was provided. Watkins advised Jerry and Bryce there is a standing invitation for all future Board Meetings but there is no obligation to attend if there is nothing to report. Permits have been issued and construction is set to begin on the new building.

Watershed Groups – No representative was in attendance tonight, but Watkins has advised several groups that there is a standing invitation for all future Board Meetings. Watkins also reported that he had been to a presentation hosted by the Lolo Watershed Group on Lolo Watershed's Hydrology.

Planning Board Update – Josh Schroeder reported that during the last meeting there was an application for a commercial subdivision project to the north of the development park. One condition of the approval was for inclusion of strong language regarding definition of a riparian resource area.

District Committees – Watkins reported that the Personnel Committee completed his 6-month review last month. At the end of this month it will be time for Vitas' 3-month review. The Budget Committee is due to meet within the next 30 days once a new budget has been compiled for review.

Missoula CD Employees – Written reports have been included in the Supervisor's folders.

### ***Jackie Vitas - Administrative Assistant***

Office Operations: Received and sorted agency mail daily and followed up on District business correspondence. Attended June 14<sup>th</sup> virtual District meeting and took notes. Drafted June meeting minutes. Drafted agenda for July 12, 2021 meeting and posted May 2021 meeting minutes to District website. Added

deadline dates to website calendar and posted Agenda. Created banner and social media graphics to support Pollinator Week events. Ordered banner and other supplies needed for Pollinator Week events. Sent out press release information to local groups and news/media outlets. Created Excel spreadsheet and uploaded to Box records of participants from Pollinator events at the Clark Fork Market and movie showing at The Roxy. Scanned physical 310 files from 1976, 1977, 1978, 1979, and 1980 (total of over 200 files), also reformatted and uploaded to Box digital files from 1976 to 1980.

Stream Permit Processing: Completed and sent out decision letters and Form 273 permits to applicants from the June 14, 2021 meeting. Updated PowerPoint presentation for July 12, 2021 virtual meeting. Added July 12, 2021 agenda to website. Updated 310 Spreadsheet with new 310 applications. Created physical files for 4 new 310 applications. Created physical files for 2 new complaints. Updated Box and Salesforce with 310 applications information, as well as complaints. Emailed in-person meeting information to all potential attendees. Created, emailed, and mailed meeting packet for supervisors and partners. Updated agenda and site inspection deadlines on CD website calendar. Forwarded new 310 applications to Knotek and Rosenthal. Updated the "Current 310 Permits" list on MCD Website.

Bookkeeping, Accounting, Reporting, and Recordkeeping: Emailed June claims form to Jacque Harris. Prepared Profit/Loss and Balance reports for July 12, 2021 meeting. Entered June claims into QuickBooks. Reconciled June bank statements. Reconciled DA Davidson June statement. Completed bill claims form for July 12, 2021 meeting. Entered deposits and checks into QuickBooks. Completed Supervisor Claim Form for the July 12, 2021 meeting.

*\*1 Holiday (Independence Day)*

***Bryan Vogt - Program Specialist***

Program Assistance: Attended and took notes at the June 14<sup>th</sup> Board meeting held via Zoom. Edited draft of June 14, 2021 meeting minutes prepared by Vitas. Participated in MACD Employees Organization virtual monthly roundtable on annual fiscal reporting and permissive mill levees. As requested, provided Watkins background information on 310 permitting issues related to site on LaValle Creek and MCD's prior involvement with the Grass Valley French Ditch RRGL projects. Assisted with 310 Complaint on Clark Fork River property outside of MCD jurisdiction. Electronic and physical file management of recently awarded DNRC grants. Coordinated the signature and return of approved DNRC Education Mini-Grant. Finalized HB223 proposal edits with Clearwater Resource Council. Directed the packaging of pollinator wildflower seed packets and created a seed recipient cooperator form. Prepared pollinator seed packet DIY monitoring guides and site preparation guides. Preparation for, and participation in, MCD's National Pollinator Week events including tabling at the 6/23 Out to Lunch event and two showings of *The Pollinators* film at The Roxy on 6/24. Coordinated the return of *The Pollinators* film discs to the producer. Participated in initial meeting between NRCS Field Office staff and MCD staff on shared missions and preparation for a Local Working Group meeting this fall.

Technical Assignments: Continued management of the no-till drill rental program, including 3 inquiries and 1 rental. Processed and filed post rental paperwork. Attended site visit with NRCS to Upper Ninemile property to provide landowner weed treatment recommendations and for training on forest management practices. With Watkins and Bryce Christiaens of the Weed District, conducted site visit to M. Healy to provide weed control, site preparation, and planting recommendations in relation to RP-01-21 application. With Watkins, conducted site visit to Oxbow Cattle Company Ranch to assist with development of riparian protection fencing grant proposal through Sweet Grass CD Water Project Program.

Communication and Outreach: Corresponded with multiple partners in preparation for National Pollinator Weed tabling events. Provided updates to sponsored partners on status of DNRC Education Mini-Grant award and HB223 Grant proposal sponsorship. Corresponded with landowner regarding Water Project Program grant proposal development. With Watkins, participated in a meeting with staff from the City of Missoula's Parks and Open Space program regarding partnering opportunities and consistency in riparian management messaging. With Watkins, participated in a NRCS organized meeting with Missoula Co. Extension and Community Food and Agriculture Coalition (CFAC) regarding opportunities to develop programs for urban and small-scale sustainable agriculture producers.

*\*1 Holiday – Independence Day / 1.5 Vacation Days*

***Radley Watkins - Resource Conservationist***

Office Administration: Coordinated the June 14<sup>th</sup> District Board meeting. Followed up on actions taken at meeting and reviewed/edited/approved draft meeting minutes. Reconciled expenses in QuickBooks. Reviewed and submitted staff timesheets to County payroll. Participated in MACD Employees Organization virtual monthly roundtable on annual fiscal reporting and permissive mill levees. Worked on the Fiscal Year 2022 District budget. Had my 6-month employee review with Personnel Committee members, Supervisors P. Parson and T. Hall. Met with the County IT Department to discuss options for Computer conversion when we move to the new building.

310 Law Administration: Wrote all 310-decision letters from June 14<sup>th</sup> District meeting. Processed four incoming 310 applications and answered 310 related phone questions. Worked with Mr. and Mrs. Bender regarding their work related to CM-0321 on Cooney Creek. Visited potential 310-related site visits. Communicated with Knotek and Rosenthal regarding 310-site inspections and their satisfaction with not needing Team inspections for the submitted 310s (I visited each of the four 310 sites). Met with DNRC's Kristen Baker-Dickinson regarding one of the 310 applications and ongoing 310 violations on DNRC leased lands. Received two additional 310 applications that were after the deadline for the July meeting.

Program Management: Carried out events for Pollinator Week, including tabling at the Clark Fork Market, tabling at Out To Lunch Missoula, conducting a TV interview, and showing *The Pollinators* movie at The Roxy. Met with a landowner, Louis Berky, to discuss land/forest management on her property. Attended first MACD Forestry Sub Committee meeting. Attended the Montana drought monitoring group meeting to discuss moisture conditions and drought across counties in Montana. Vogt and I met with City Conservation Land Management staff regarding partnering opportunities and consistency in riparian management messaging. We also received a tour of the MCD funded City greenhouse. Met with NRCS Field Office staff and MCD staff on shared missions and preparation for a Local Working Group meeting this fall. Participated in a NRCS organized meeting with Missoula Co. Extension and Community Food and Agriculture Coalition (CFAC) regarding opportunities to develop programs for urban and small-scale sustainable agriculture producers. Along with Vogt and Bryce Christiaens of the Weed District, conducted site visit to Marshal Healy's property to provide weed control, site preparation, and planting recommendations in relation to RP-01-21 application. Along with Vogt worked with Bart Morris and Oxbow Cattle Company employee, Caroline Caldwell, on site and remotely to prepare for MACD to sponsor a grant from the Sweet Grass Conservation District, for fencing Oxbow riparian areas.

*\*1 Holiday – Independence Day*

Other Reports – Bob Schroeder reported that at the FWP Future Fisheries meeting earlier this month, the proposal to assist in the City of Missoula’s purchase and retirement of the Flynn-Lowney Ditch was the highest-ranking project but was funded at \$50,000 as opposed to the original request of \$100,000.

## **New Business**

Correspondence – Vogt reported that the Upcoming Events sheet was included in the Board packets and highlighted several up events. Watkins reviewed a couple resolutions that recently passed through the state Senate and House of Representatives, specifically SJ-6, which dealt with the simplification and reduction of the costs of stream restoration projects while maintaining the safety of structures in floods.

### Programs

Grants Program:

MCD Grants – Vogt reported there were no new MCD Grant requests to review.

### Sponsored Grants

Sweet Grass CD Water Projects Program Grant – Miller Creek Riparian Fencing - Oxbow Cattle Company  
Vogt reported on this request to sponsor Oxbow Cattle Company for a Water Projects Program Grant offered by Sweet Grass CD. The project would include fencing off 1.15 miles of riparian buffer along lower Miller Creek with permanent electric fence to aid in vegetation reestablishment and protect water quality. The Grants Committee has recommended support of the proposal sponsorship.

Libby Maclay moved to approve sponsorship and submission of grant proposal and to allow staff to continue finalizing the proposal with the applicant. Bob Schroeder seconded the motion. Vote was unanimous in favor – motion carried.

Revised MCD Grant Program – Vogt reported that prior to advertising the new MCD Grants Program, the FY22 MCD Budget needs to be finalized and approved.

Equipment Program – Vogt reported there had been one drill rental since the June Board meeting and that the drill is scheduled to go out again tomorrow for the seeding of an irrigated pasture.

Pollinator Program – Vogt reported that staff successfully tabled and provided pollinator wildflower seed packets at the 6/19 Clark Fork Market, the 6/23 Out to Lunch event, and on 6/24 in between the two showings of *The Pollinators* film at The Roxy Theater. Individuals obtaining seed packets were asked to fill out cooperator forms to track where the seed will be planted and to check on the success of the plantings. A total of 104 individuals picked up seed packets at the three events. Additionally, a total of 48 tickets were sold for the two showings of *The Pollinators* film.

**Old Business** – none to report

## **Payment of Bills**

Tim Hall moved to pay the bills. Libby Maclay seconded the motion. Vote was unanimous in favor – motion carried.

**Petty Checking Account**

| Date      | Description  | Charge          |
|-----------|--|-----------------|
| 6/16/2021 | Amazon.com – seed packet envelopes                     | \$35.98         |
